

## **Report**

Membership reminders were e-mailed to members and recent ex-members (except Ian, with whom I have been in personal contact).

In soliciting new members all the Atlantic regional universities were canvassed by e-mail, contacting the appropriate departments through the departmental secretaries where they were identified, otherwise through department heads or contact people identified on the university websites. In the Maritimes only 4 college locations in the Maritimes were identified with programs likely having chemistry courses (Nova Scotia Community College Dartmouth; New Brunswick Community College St. John, Oulton College Moncton and Holland College in PEI). Only the College of the North Atlantic gave an accessible faculty listing identifying which locations around the province had chemistry instructors.

Copies of the basic recruiting letter, which was varied as appropriate to different recipients, and the list of people contacted, will be made available upon request.

I expect most responses requesting membership to be forwarded directly to Genevieve Dufresne-Martin, as my letters directed, or to be bound up in Conference subscriptions. One recipient (Ghislain Deslongchamps of UNB in Fredericton) did write back to me to introduce himself and to say he was going to send in a membership.

## Quebec Regional Director Report 2009-10

Hello Lawton,

Very brief report:

With the changing of jobs, I wasn't able to do much as the Québec Representative. It would be really nice to get better representation from our province, but even for this year' C3 conference, the dates did not make it possible for Cegep instructors to attend. (Final exam go until about May 21st this year).

As this job doesn't really allow me to be involved at the C3, I would appreciate being replaced for the coming year.

It was a very brief involvement for me with C3, I really enjoyed working with you guys and I hope in the long run to get to know this Dean's job enough so that I can get involved again!

Thanks  
Catherine

**Report of the Regional Director, Prairies Region**

**2010 May 13**

In 2009-2010, I sent out a reminder to all members of the prairies region, on the 8<sup>th</sup> of April 2010, to invite them to renew their membership and to register for the upcoming 37<sup>th</sup> annual C<sub>3</sub> conference at Thompson Rivers University in Kamloops. As I used the 2008-2009 list of members, it is not possible to report about the results of my effort to recruit new members from last year. I would like to mention that 8 e-mails bounced and the names of these members were sand to the treasurer.

It was a great pleasure for me to work with you and I look forward one more year in this position.

Lamine Diop
