

Editor's Report 2009-10

This year two newsletters went out. I do believe it will be nice if the editor's position and the webmaster are combined as it will help to ensure everyone who is supposed to get the newsletter actually does. I am sorry that I can't be there but am hoping that someone is going to be taking pictures of the beautiful conference to put in the fall newsletter. I would also love it if someone would fill me in on any interesting happenings that occur! I look forward to being on C3 board for many more years to come and regret that I couldn't be there this year (just too tough with a 12 week old baby). On a personal note I am loving being a mother and am really enjoying being at home and look forward to my year off. I hope that everyone has a great time. Hope that I can be teleconferenced in on Thursday.
